Re: Technical Evaluation on FIVB Website

Dear President,

We are writing you to inform you on the technical evaluations which are currently on the FIVB website.

During the last few years, our technical and analytical team has created a large amount of videos which contain technical and tactical clips that demonstrate the latest game strategies in modern Volleyball. This technical video gallery contains useful clips which are available to use for coaches, players and National Federations.

We encourage your National Federation to hyperlink those pages to your website to be used in your country. Clubs, teams and federations can utilise them free of charge.

We kindly ask you to inform all the clubs in your country about this extensive and educational material which you will find below:
